Please Note: We do not guarantee a color match between the printed backer card and DiGi Mates screen cleaner. While we try to color correct the card and DiGi Mates to match as as close as possible, there are many variables between each printing method to match the colors on the card to the colors on the DiGi Mates. This is mainly due to the different materials that we are printing on and the different methods of printing. Each printing machine has a different color spectrum, the cards are laser printed using powder toners, while the DiGi Mates are dye sublimated utilizing ink jet technology.
